Re: Alterations and Additions to  
Central Columbia Middle School  
Central Columbia School District  
Project #4-04

Dear Mr. Eichelberger:

We are writing to express our gratitude for the efforts made by Lobar, Inc. during the Central Columbia Middle School construction to help complete a successful Project.

It has been one year since Substantial Completion, and we recently visited the Middle School to take photographs and complete follow-up with the District. We were pleased to receive positive feed-back from the administration, teachers, and staff during our visit.

Personally, I would like to take this opportunity to highlight the positive contributions of the Project Manager and Superintendent that represented Lobar, Inc.

Mike Hall proved to be a very knowledgeable Project Manager. He was effective in managing subcontractors, requests for information, and submittals. He maintained a clear path of communication throughout the process. When requests for additional work were made, he made every effort to accommodate the School District. When resolving discrepancies and disputes, I found Mike to be very clear and forthcoming. He was always willing to work through issues to reach a positive conclusion which was agreeable to your office, our office, and the School District.

Doug Stugart is a Superintendent that I would look forward to working with again if the opportunity presented itself. He proved to be very fair, and he maintained solid general knowledge for all aspects of the Project. He was one of the major forces in helping to prepare and work through a project with difficult phasing, and a very aggressive work load, especially in the summer of 2006. During tension-filled moments in the Project, I observed his ability to maintain a cool and calm demeanor. The workers on site showed a high level of respect for his authority, and the quality of work was a direct reflection of his involvement in the Project.

Please share with Mike and Doug how much I appreciated working with them. And once again I would like to thank you and Lobar, Inc. for being an integral part in the success of this project.

Sincerely,

A handwritten signature in black ink, appearing to read "Alicandri". The signature is fluid and cursive, with a prominent initial "A".

Andrew R. Alicandri  
Associate Principal
