Dear Rich:

Often during the holiday season we feel it appropriate to thank some of the good Contractors that make our design efforts turn into a high quality, functional buildings or additions.

Your senior support staff and field construction personal are sound and experienced. Even if we have minor differences at times on the jobsite, the professionalism your people show, all the time, is to be commended.

We hope that you will continue to bid our work here in the Western NY. We have 3 good projects in the mill.

1. A \$7M project for Bolivar-Richburg schools that has been in Albany for review since the first of October. We expect design comments in January and have the project out to bid mid-March.
2. We have a \$10M project in the Friendship District that we hope to have a submission to NYSED by March
3. We have a \$12 M project in the Belfast District that is further along then Friendship and may be ready to go to Albany in January. It is 20 weeks to get through the State review process.

We appreciate your good work and hope that you have a fine holiday season and a prosperous new year.

Yours truly,

Tom McElheny SRVP
Clark Patterson Lee
