Subject: Etown Train Station
Importance: High

Funny things happens when you wear your Lobar jacket sometimes. I was getting my regular 6" turkey sandwich, (no dressing or cheese for \$1.99, it is the best deal) at Sheetz's and someone asked me if I knew about the Etown train station. I said that I did and then he proceeded to tell me how happy the town is with this new station and platform. He said that the station was closed in the 50's or 60's. And that 70,000 people per year use the station making it the second highest behind Paoli. And now PennDOT is putting in a bridge for Mars M&M's. And that Arlen Spector was involved and fortunately he said, "he didn't have to worry because he was already elected." So, I asked, "So, you're in politics?" "Yes, I'm Chuck Mummert, the mayor of Elizabethtown. We got a good price, it looks wonderful and we couldn't be happier."

Had to pass this along. Not being out and about (except for Sheetz's at lunchtime), I don't often get to hear these accolades.

Good job Team Lobar.
