Lobar Construction Services
1 Old Mill Road P.O. Box 50
Dillsburg, PA 17019
Mr. Rich Eichelberger

Good morning Rich,

I came across this company and thought that you may need a firm like this for sub-contracting work. I know that things are slow now but we both know that it always turns around.

Regarding the Southeast and Southwest Elementary School renovations and additions every thing went well with Mr. Johnson at the helm. The site superintendents were excellent as usual. Greg and Guyle are different but both are dedicated to giving the owner the best value for the money.

It was a pleasure to complete another job with Lobar your reputation is well earned. I am starting on the design of the High School and my firm is lead with the Architect designing a facility to serve the function and not the other way around. This should be interesting as the owner wants a 2010 bid and ground breaking late 2010. I will keep you posted as to the progress.

Please tell your employees thanks for me and I feel that they did a great job.

Sincerely,

A handwritten signature in black ink, which appears to read 'Charles E. Fairchild'. The signature is written in a cursive style with a large, looping initial 'C'.

Charles E. Fairchild
