Rich, I received the kind note below from George Sergakis who owns Sigma Painting. He is the painting contractor who we worked with on Friendship and Scio. I notified him that Whitesville was postponed so maybe he could bid it with us now.

Hello Danny,
I mailed you the final application today without retainage. If there is still retainage just deduct it from my payment and send it to me when you get it from the owner.

It was really great working with you on these two projects. Your office as well as your guys at the field are great to work with, professional and fair!!! Rare qualities these days.

I am looking forwards to working with you again on future projects. Lobar is on top of my list. I am sorry to miss Whitesville, but I will do my best for Bolivar/Richburg.

Thanks again, George.
