September 2, 2008.

Rich,

Please excuse the tardiness of this note. Your friendship and good will deserved much better.

I want to express to you my deepest appreciation for your guidance on the high school project in Manheim Township. It could not have worked as smoothly without your leadership and involvement.

Please pass along my thanks to your parents as well for your family's support of our burgeoning Education Foundation. It's just one more way you have had an impact on the lives of so many children.

I don't know what kinds of construction projects will be in my future. I'll only hope to deal with companies as honorable, professional and competent as Lobar. I learned so much from you on construction. More than that, your ethical behavior, high standards and character were lessons for life.

Please pass along my gratitude and thanks to Steve, Brian and Bill for their work on this project. I very much appreciate their efforts for Manheim Township.

With highest regards,
