Subject: Project I, Lehigh Valley International Airport

Dear Mr. Arfanella:

This will express our sincere satisfaction in working with you and your firm over this past year and one-half. It is seldom that an owner receives the cooperation, respect and "can do" attitude that Lobar has demonstrated during the performance of your construction contract for our project at the airport. Although working with existing security constraints, public and in-house safety concerns (while maintaining an operating facility) and the many temporary tenant facilities required, your team performed exceptionally well. From the on-site construction superintendent, to the top management at Lobar, professionalism was a key ingredient to the success of this project.

Thank you for a job well done and we wish you the best of luck with future clients and many successful projects. Hopefully we will have the opportunity to work together again soon.

Very truly yours,
