Lebanon, PA 17042

Dear Mr. Eichelberger:

I just wanted to take this opportunity to thank you and Carl Barker, Project Manager for your efforts to make our new building such a huge success in the Lebanon Valley. Carl's leadership not only kept our project at budgeted levels, but also completed the building well-ahead of schedule. We are delighted with the results, and our customers are equally appreciative of the opportunity to come and visit our "State of the art" 21st Century Nissan facility.

We also want to extend a special "thank you" to Mr. Ralph Masser, Superintendent and Mr. Charlie Shughart, General Superintendent for their exceptional management of the project. Through their combined efforts, they built quality into our facility that our customers will appreciate for many years to come.

From December 13, 2009 to the present date, our results have been everything we had hoped for and more. Each month, our sales and service results are setting performance records that are the envy of other dealerships in our primary market area. In March 2010, we actually sold 100 new and used vehicles and set a record for service labor in the process. We fully expect to break more records as we draw customers into our new building that is the most desirable facility in Lebanon, PA.

Thanks again to you and Lobar, Inc. for your efforts to make our new building such a huge success. It was a pleasure doing business with you and your team.

Sincerely,

Keith A. Rohrer, President
