Dear Rich,

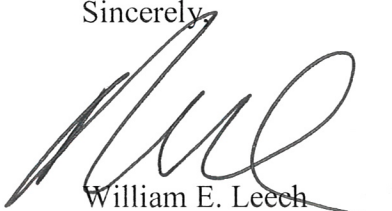

I just wanted to drop you a note regarding the performance of Bennie Long at both the Lock Haven University Bentley Hall and Bloomsburg Student Services Center Projects.

Bennie, acting as Lobar's general superintendent was fantastic. His ability to coordinate site personnel and communicate with the other trades was probably the biggest reason we made schedule. Bennie really took the attitude of "whatever it takes" and I can't tell you how much that meant to not only me but the University's as well. When Bennie committed to something we could take it to the bank.

Throw in the fact that we had multiple Prime Contractors on both Projects and it makes Bennie's accomplishments even more significant.

I would be happy to have Bennie lead the charge on any of my Projects.

Sincerely,

William E. Leech  
Project Manager
